

From the Button Cache of Mrs. Saint Nick . . .

Supplies

2 twelve inch pipe cleaners
Buttons from your button box
Ribbon for the bow

Directions

Twist together two pipe cleaners at the bottom, leaving a little extra for tying the two ends together. Stack two holed buttons onto the pipe cleaners until you reach the top and twist there also. Curve into a wreath shape and twist the top and bottom together. There will be a space where you joined them, but a pretty bow will cover it nicely.

If you involve your kids, they might lose patience and want to stop. No problem. Just knot it at the top and loop a ribbon through for hanging.
